# COLOUR CONSULTANCY

BEAUTIFULLY CONSIDERED. EFFORTLESSLY LIVEABLE.

SERVICE GUIDE

BEAUTIFULLY CONSIDERED. EFFORTLESSLY LIVEABLE.

A comprehensive, thoughtfully tailored design service to transform the look and feel of your room - with clarity, confidence and calm guidance throughout.

We offer a selection of room design packages, allowing you to choose the level of support that suits your project.

Our colour consultation can be tailored to suit the level of support you need. For a more in-depth experience, we offer an on-site consultation where we assess your space in person, carefully considering light, layout and existing finishes to develop a palette that feels balanced and cohesive.

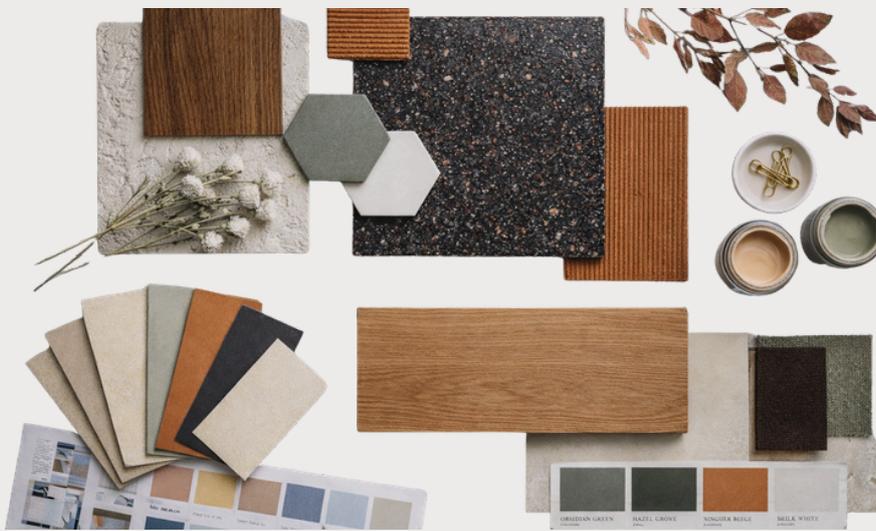

If you prefer a flexible option, consultations can also be delivered remotely, with the same thoughtful guidance and clear documentation provided so you can implement the scheme confidently in your own time.

Should you require additional support beyond the initial consultation, this can be arranged - ensuring you feel fully guided as your colour scheme comes to life.

# WHAT'S INCLUDED

Selecting the right colour palette is about far more than choosing a shade you like. We take a holistic view of your space, carefully weighing the elements that influence how colour will truly perform in your home.

*This includes:*

- | How the room is used and who uses it
- | The quality, direction and consistency of natural light
  - | The atmosphere you want to create
  - | Refinement stages
- | Existing flooring, fixed finishes and architectural features
  - | The furniture and pieces you're keeping
  - | The colours you naturally gravitate towards

By looking at every layer, we shape a scheme that feels considered, cohesive and quietly confident.

# HOW IT WORKS

## 01 | Consultation

We'll either visit your home or connect via video to assess the space in detail. Together, we'll consider light, layout and existing furnishings while discussing the atmosphere you'd like to create - ensuring the final palette feels considered, cohesive and perfectly suited to both your home and the way you live.

## 02 | Palette Concept

You will receive a personalised colour scheme, along with clear guidance on paint placements and finishes. This will help you see how the palette will flow throughout the space and come together as a cohesive, balanced whole.

## 03 | Refinement

We revisit the colour scheme together, thoughtfully adjusting tones and placements until the palette feels harmonious, cohesive and perfectly aligned with you and your home

## 04 | Final Specification

Your complete colour specification is delivered with every detail clearly outlined — including recommended brands, exact shade names and sourcing information — creating a cohesive palette ready to implement with confidence.
